

Pet Adoption & Veterinary Care System

Stakeholders: Admin, Shelters, Veterinarians, Pet Owners (Adopters), Guests

Admin:

- Approve shelter and veterinarian accounts
- Approve adopter accounts
- Manage pet categories and breeds
- Set adoption policy and screening rules
- Monitor adoption and treatment statistics
- Generate monthly adoption reports (PDF)
- Broadcast vaccination drives and awareness notices

Shelters:

- Add pets with photos, age, breed, and health notes
- Review adoption applications
- Approve or reject applications with remarks
- Schedule meet-and-greet visits
- Update pet status (available, reserved, adopted)
- Generate adoption certificates (PDF)
- Chat with adopters

Veterinarians:

- Manage appointment slots
- Approve or reschedule appointment requests
- Record diagnosis, prescriptions, and vaccination history
- Upload test reports
- Mark follow-up visit dates
- Chat with pet owners

Pet Owners (Adopters):

- Create account and log in
- Browse pets and submit adoption applications
- Track application status
- Book veterinary appointments for their pets
- View pet medical and vaccination records
- Download adoption certificates and prescriptions (PDF)
- Chat with shelters and veterinarians

Guests:

- View adoptable pet gallery
- See adoption process and pet care guides
- Access contact and awareness page

Others:

- Vaccination reminder alerts can be included
- Medical history timeline for each pet should be included
- Include a chat feature
